## Federally Funded Contracts Evaluating DBE Participation

### Role of OBEO, Contract Evaluation Unit

May 2013

The California Department of Transportation (Caltrans), Office of Business and Economic Opportunity (OBEO), Contract Evaluation Unit (CEU), is responsible for evaluating all Caltrans federally funded contracts and is responsible for counting Disadvantaged Business Enterprise (DBE) participation towards contract goals according to federal regulation. The CEU determines whether the goal has been met or an adequate good faith effort has been made by the contractor.

#### Bidder's Responsibility – For Meeting DBE Requirements

Refer to the Special Provisions of the specific contract you are bidding on for your responsibilities. Contracts are advertised on the Office Engineer's (OE) website at [http://dot.ca.gov/hq/esc/oe/weekly\\_ads/index.php](http://dot.ca.gov/hq/esc/oe/weekly_ads/index.php) and the Division of Procurement and Contracts' (DPAC) website at <http://caltrans-opac.ca.gov/contract.htm>.

#### Contract Evaluation Unit's Responsibility – Counting DBE Participation

Step 1	A contract is received from Office Engineer (OE) or Division of Procurement and Contracts (DPAC) and the CALTRANS Bidder-DBE Commitment form from the prime contractor is reviewed to see if the prime contractor met the goal. If not, the good faith effort will be evaluated. See 49 CFR, Part 26, Appendix A, for good faith efforts guidance. This determination is based only on information timely submitted with the bid.
Step 2	<p>Review the CALTRANS Bidder-DBE Commitment form from the prime contractor to:</p> <ul style="list-style-type: none"> <li>ensure that the DBEs are certified by checking the California Unified Certification Program (CUCP) database [cross referencing DBE work category code(s) with contract bid items] <i>(If the DBE is not certified, their participation will not be counted.)</i></li> <li>ensure that the DBEs possess the correct work category code for the type of work they are listed to perform <a href="http://www.dot.ca.gov/hq/bep/find_certified.htm">http://www.dot.ca.gov/hq/bep/find_certified.htm</a> <i>(If the DBE does not possess the correct work category code, their participation will not be counted.)</i></li> <li>verify the dollar amount claimed for credit is accurate <ul style="list-style-type: none"> <li>amount claimed for credit on DBE Commitment form is consistent with written confirmation (quote) from DBE.**</li> <li>amount claimed for credit is consistent with the prime contractor's bid and subcontractor listing</li> </ul> </li> </ul> <p>Written confirmation (quotes) from the DBEs are reviewed to verify if the DBEs are committed to do the work on the Caltrans Bidder DBE Commitment form.**</p> <p><b>**Important Note:</b> Rate sheets that are generic will not be accepted in lieu of written confirmation (quotes). This determination is based only on information timely submitted with the bid.</p>
Step 3	<p>Counting DBE participation: DBE participation is "counted" only where it is demonstrated that a certified DBE possessing the correct work codes will be actively participating on the contract. CEU will count DBE participation as follows:</p> <ul style="list-style-type: none"> <li>The entire amount of that portion of a construction contract that is performed by the DBE's own forces are counted.</li> <li>DBE' participation will not be counted if the DBE is not certified at the time of bid or if a certified DBE does not possess the correct work codes.</li> <li>The method for counting trucking towards the DBE goal requires the following additional documentation: motor carrier permit, truck title, registration, and proof of insurance, trailer or tanker registration, bills of lading, sub-hauling agreements, existing commitments of trucking on other jobs, and subcontract specific information (e.g., type of material hauled, number of trucks/trailers/tankers, load capacity, distance traveled, and schedule). Truckers need to own at least one, operable, insured truck.</li> <li>DBE trucking firms receive 100 percent credit for the value of the hauling. DBE trucking firms who sublease to other DBE firms or DBE owner operators receive 100 percent of the value of the hauling.</li> <li>DBE trucking firms who sublease to non-DBE trucking firms or non-DBE owner operators receive credit for the transportation arrangement or broker fees <u>only</u> – typically from 5 -20 percent of the value of the hauling.</li> <li>Cost of material or supplies are counted at 60 percent for regular dealers. Those claiming to be regular dealers of bulk items must additionally demonstrate that they own and operate appropriate distribution equipment.</li> </ul> <p><b>Important Note:</b> There may be times when further clarification of commitment is requested for other types of work.</p>
Step 4	<p>Determination is made regarding whether goal was met. If goal was not met, the good faith effort documentation will be evaluated.</p> <p><b>Important Note:</b> The steps above are not all inclusive. Other steps may be taken in the contract evaluation process.</p>
Step 5	The contracts are returned to OE or DPAC, whichever is applicable.

**FACT SHEET**  
**Federally Funded Contracts**  
**Monitoring DBE Participation**  
**During Construction**  
*May 2013*

**Role of the Division of Construction**

California Department of Transportation (Caltrans) resident engineers and inspectors monitor the contract work to ensure the DBEs listed on the approved CALTRANS Bidder-DBE Commitment form perform the items of work specified at the time of bid opening and that no improper substitutions occur. Monitoring includes documenting the work DBEs perform by completing inspection reports. Resident engineers and inspectors ensure that all DBEs are performing a commercially useful function (CUF).

CUF is a matter of contract compliance that achieves two objectives: (1) ensures that dollars counted towards DBE goals are merited, and (2) ensures the Federal Government that funds entrusted to the State of California meet federal requirements.

Code of Federal Regulations 49, Part 26.55(c)(1)(2) states, "A DBE performs a commercially useful function when it is responsible for execution of the work on the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved."

To perform a commercially useful function, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating a price, determining quality and quantity, ordering the material, and installing where applicable and paying for the material itself.

A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation.

To ensure DBEs are performing a CUF, the resident engineer or inspector documents the DBE's work in inspection reports and reviews additional documentation that verifies the DBE's participation. Some examples of the types of documents are:

- certified payroll records
- paid supplier invoices
- monthly trucking verification reports
- supplier bills of lading or purchase requests
- leases

**Service and Architect and Engineering Contracts**

Monitoring DBE participation, including whether a DBE is performing a CUF, are subject to the same guidelines as stated above [49 CFR, Part 26.55(c)(1)(2)].

For further details, please refer to 49 CFR, Part 26.55.

**CALIFORNIA DEPARTMENT OF TRANSPORTATION  
DISADVANTAGED BUSINESS ENTERPRISE PROGRAM REVISIONS  
FEBRUARY 2015**

On October 2, 2014, the United States Department of Transportation published revisions to the Disadvantaged Business Enterprise (DBE) program regulations found in Title 49 of the Code of Federal Regulations, Part 26 (49 CFR 26). The DBE regulations in 49 CFR 26 form the basis for the California Department of Transportation's (Caltrans) DBE program.

As a result of the changes to 49 CFR 26, the California Department of Transportation (Caltrans) has completed significant revisions to the following sections of its Standard Specifications:

- Section 2: Bidding
- Section 5: Control of Work

Following is a summary of changes:

**Counting DBE Participation 2-1.12A General**

- To count toward meeting a DBE goal, each listed DBE, at bid opening, must possess the work category code(s) applicable to the type of work they will perform on the contract.
- If a DBE leases trucks from a non-DBE truck leasing company, it must use its own employees as drivers in order to be eligible to receive credit for the total value of the hauling services.

**DBE Commitment Submittal 2-1.12B(2)**

- All bidders must submit, no later than 4 p.m. on the 4<sup>th</sup> business day after bid opening, the following information:
  - DBE Commitment form.
  - Quote from each listed DBE that describes the type and amount of work shown on the DBE Commitment form.
  - DBE Written Confirmation form for each listed DBE to establish that the DBE has agreed to participate in the type and amount of work shown on the form.
  - If the contract goal is not met, good faith efforts documentation. Good faith efforts documentation submitted outside of the specified timeline will not be considered as part of Caltrans' evaluation of good faith efforts.
- Caltrans has modified its DBE Commitment and DBE Good Faith Efforts Documentation forms based on changes in 49 CFR 26.

**Evaluation of Good Faith Efforts 2-1.2B(3)**

- Appendix A to 49 CFR 26, "Guidance Concerning Good Faith Efforts," has been revised. Highlights include:
  - Additional emphasis on a bidder's efforts to identify and solicit DBEs.
  - Additional emphasis on a bidder's efforts to negotiate in good faith with interested DBEs, including evaluation of quotes provided by DBEs.
  - Caltrans must consider the performance of other bidders in meeting the contract goal as part of an evaluation of good faith efforts.

**CALIFORNIA DEPARTMENT OF TRANSPORTATION  
DISADVANTAGED BUSINESS ENTERPRISE PROGRAM REVISIONS  
FEBRUARY 2015**

**Reporting 5-1.13B(1)**

- Caltrans must begin collecting and reporting DBE payment data for all ongoing contracts. This is in addition to the collection and reporting of DBE final utilization upon acceptance of contract work.
- Prime contractors must submit by the 15<sup>th</sup> of each month a Monthly DBE Payment form documenting payments made to DBEs during the previous month. Failure to submit this form each month by the specified due date will result in withholds pursuant to section 9-1.16E(3), Performance Failure Withholds, of the Caltrans Standard Specifications.

**DBE Substitutions 5-1.13B(2) General**

- A substitute DBE, at the time of substitution, must possess the work category code(s) applicable to the type of work the substitute DBE will perform on the contract.
- The prime contractor must submit good faith efforts documentation for DBE substitutions within 7 days; the timeline may be extended an additional 7 days at the contractor's request.
- A prime contractor's inability to find a replacement DBE at the original price is not alone sufficient to support a finding of good faith efforts to replace the original DBE.

.....

This summary was prepared by the Office of Business and Economic Opportunity (OBE0) to promote awareness of changes to the DBE regulations at 49 CFR 26. The information provided in this document is not intended to supplement or replace contract documents that contain information regarding contract-specific requirements.

Caltrans encourages bidders and DBEs to review on a contract by contract basis all bid documents, including but not limited to, standard specifications and standard plans, forms, and addenda to identify, understand, and comply with contract requirements.

For more information about the Caltrans' DBE program, please visit the OBE0's web site at <http://www.dot.ca.gov/hq/bep/>.
